

TDW 610 - 4B

The Duplex bag filter unit is the most commonly used bag filter unit in the oilfield industry. This offshore proof, skid-mounted filter unit is equipped with all necessary valves and safety features. The unit offers the most cost effective way to clean-up all possible oilfield fluids. It allows you to simultaneously filter with one vessel, and easily change out the used bag of the other vessel.

SYSTEM DESIGN FEATURES

- Standard serial/ parallel configuration
- Standard TDW 610 type: 4 bags per vessel
- Compact space saving design
- Innovative push lever and swing-away vessel lid, easy to operate
