

TDW 610-50/40-4B

This compact, sophisticated filter unit combines the function of two filter units; a dual pod bag filter unit and dual pod cartridge filter unit. The unit allows pre-filtration, and polish filter with bags or cartridges, within one unit. During the cartridge operation, the baskets and basket plate can be stored in a special storage rack in the unit. The Duplex filter unit has the capability to use standard filter bags as well as standard plug-in cartridges.
